Certificate of Quality and Safety

AD Liquid™ BronchoLine

AD Medicine Limited does guarantee that all the products it manufactures will be in stable condition and will not cause any harmful effect on human's body if only used as prescript and before the expiration date stated on the label. Shelf life of the named above products is no less than 36 months if stored under normal conditions at room temperature and remain unopened.

All products are manufactured in strict accordance with GMP standards, may be sold freely to the public, and are produced as dietary supplements which are suitable for human consumption.
